Unimate

Lemon

There are some days when you feel like you're on top of the world—it's those kinds of days where you accomplish more, and you do it with style. Other days, your brain feels foggy, and you can't focus. So what makes the difference? How can you make every day a great day?

Unimate helps make great days the rule, not the exception.

Yerba mate comes from a plant native to South America, where it has been consumed in community rituals for hundreds of years. Naturally rich in antioxidants and nutrients, yerba mate has been traditionally used to promote mental clarity, endurance, appetite control, and an improved mood. The yerba mate leaves in Unicity Unimate undergo a unique five-step process—handpicking, fire roasting, extracting, concentrating, and purifying. As a result, Unimate is a proprietary extract that enhances the benefits of yerba mate and contains up to 10 times the amount of chlorogenic acids (feel-good elements) found in a typical cup of coffee. No matter what daily tasks await, Unimate will support your cognitive function and endurance and help you feel great.

Choose Unimate, and choose to feel great.

Features

- High-quality, purified, ultra-concentrated yerba mate
- Rich source of
  - Chlorogenic acids
  - Theobromine
  - Mate saponins
  - Antioxidants
- Convenient single-serving packets
- No added sugar (sweetened with stevia)

Benefits

Supports feelings of well-being and relaxation

Supports energy and a good mood

Helps maintain endurance and stamina

Use

Mix the entire contents of 1 stick pack (5.1 g) with 17-24 oz (500-700 mL) of hot or cold water (add more or less to taste). Drink once a day or more often if desired.

As Unimate does not break your fast, take it first thing in the morning for added satiety and energy support. You can take it again right before your first meal of the day.

Ideal for

Entrepreneurs, Business People, Super Moms, and Super Dads
Unimate provides just the right amount of support to nail that afternoon presentation, finish all the household tasks, or help the kids with the project they just conveniently remembered was due tomorrow.

Athletes
Whether you're working out or enjoying your favorite sporting activity, Unimate helps you tackle it all. The convenient on-the-go packets make it easy to take Unimate with you for those longer excursions.

College Students
Unimate promotes focus and concentration, and it helps you find the motivation to create successful habits and sustain a busy social life.

When to use

- Before working out.
- In the morning to start your day with a boost of energy.
- Between meals.
- Before an important meeting, test, or presentation.
- Whenever you want to combat brain fog or mental fatigue.

Try this

Prepare your Unimate hot, and stir with a cinnamon stick.

Try adding a tablespoon of coconut oil to your Unimate.

Add a tablespoon of Complete powder for a healthier, sweeter beverage.

Try Unimate Lemon with ice for a cool, delicious recharge.

Looking for an extra boost? A Matcha-Unimate combination should do the trick.

① SELECTIVE HARVESTING

② BIOACTIVE PRESERVATION

③ PRECISION REFINEMENT

④ BIOACTIVE CONCENTRATION

⑤ EFFICACY ASSURANCE

Ingredients

Green yerba mate leaf - Yerba mate comes from the leaves of the holly plant native to the central regions of South America. Yerba mate has been used by indigenous people for centuries. Yerba mate is a natural source of caffeine, and it contains a myriad of natural polyphenols, which have potent antioxidant properties.

- **Yerba mate contains naturally occurring Chlorogenic acids** - Chlorogenic acids are polyphenol compounds found in plants and seeds, such as yerba mate, green coffee beans, and tea. Chlorogenic acids are said to have a number of positive health properties. Furthermore, they are strongly antioxidant.
- **Mate saponins** - Mate saponins are a class of molecules that are specific to the yerba mate plant. They are particularly valuable secondary plant substances.
- **Theobromine** - Theobromine is a molecule that contains a structure similar to caffeine. It is perhaps best known as the mood-boosting molecule found in high-quality chocolate. So theobromine is supposed to put you in a good mood.

Designed for Health

Today, we face a health crisis unlike any the world has ever seen. Despite scientific advancements in medicine and health care, people are unhealthier than ever.

The good news is that this pervasive global health decline is completely reversible. Unimate

FAQs

Is the new Unimate Lemon any different from the previous Unimate Lemon?

The new Unimate Lemon is an exciting update to our current Unimate formula. It contains the same potent yerba mate extract with the same amazing benefits, but is naturally flavored and sweetened with Stevia.

How much caffeine is in one serving of Unimate?

The product has been tested for an upper caffeine limit, and it has about as much caffeine as one cup of premium coffee. However, since natural ingredients can have some variation, the caffeine amount is not standardized.

Can I take Unimate with Unicity Matcha?

Yes, you can use both products at the same time. Both products contain caffeine, so caffeine-sensitive individuals would be well advised to not drink the beverages together or before bed.

Is this product compatible with ketogenic or other low-carb diets?

Unimate is ideal for the keto diet or other low-carb diets because it doesn't break your fast and helps you last longer until your next meal. This allows the body to enter the fat burning zone where it will eventually start to produce ketones.

How is Unimate Lemon different from Unicity Matcha?

Unicity Matcha mainly provides energy for the body, Unimate Lemon more of a mental energy. Matcha supports energy production, Unimate Lemon promotes improved mood, sense of well being and a feeling like you can accomplish anything.

Why can’t pregnant or nursing women use this product? Can kids use Unimate?

Unicity does not test products on children, pregnant women, or nursing women. Therefore, Unicity cannot recommend usage for these demographics. It is also good to note that Unimate does contain natural caffeine, and many sources indicate that caffeine may not be good for pregnant women or young children.

What are chlorogenic acids?

Chlorogenic acids are a family of polyphenol compounds found in plants like yerba mate, green coffee beans, and tea. They have strong antioxidant benefits.

What are mate saponins?

Mate saponins - Mate saponins are a class of molecules that are specific to the yerba mate plant. They are particularly valuable secondary plant substances.

What is theobromine?

Theobromine is a molecule that is similar in structure to caffeine. It is perhaps best known as the mood-boosting molecule found in high-quality chocolate. So theobromine is supposed to put you in a good mood.
